OTHER ART RELATED

COMMUNITY BUILDER AWARD 2021 Prince Edward County
"Aside from teaching at the Baxter Centre, Kato is perhaps the best 'connector' of people we have in PEC, always connecting one artist with others. She encourages people to experiment and to recognize their own strengths. She holds art sales at Baxter in support of their programs, and assists artists in writing grant applications. Kato single-handedly created the huge thermometer to measure progress in the building campaign for our library. Her art books and supplies are always available to aspiring artists, as are her advice and tips. Hers is not a loud voice, but is eminently consistent, supportive and kind. She has done marvellous things to build our creative community."
